【EXPRESSIONS】

1. Yet people in Southeast Asia also often say they can't live *without* rice.
(訳)
2. *Not only* in India, Turkey, and Saudi Arabia *but also* in the Latin American countries of Brazil and Colombia rice is the staple food.
(訳)

【COMPREHENSION --- Summary】

Rice is eaten not only by the Japanese but also by many other people in the world. In many Southeast (1.) countries, people eat more rice than Japanese people. In Korea and Taiwan, rice is an important (2.) food. In South (3.), too, rice is eaten as a staple food. In fact, about (4.) percent of people in the world eat rice as a (2.) food.

Different Kinds of Rice

short-grain rice

long-grain rice
